

AIRxTOUCH KIOSK

The Best
Touchless Experience
on the market_

Viruses

don't like

us

Viruses, germs and bacterias are the biggest issue when considering touch screens in the public space. Nowadays, everyone's aware of that and doesn't want to use it anymore. Even once the pandemic is over, consumers expect to increase their use of touchless technologies to avoid interactions that require physical contact: **Touchless is not a trend, it's the new normal.**

73%

of consumers complete their purchases in a physical store

77%

of consumers expect to increase their use of touchless technologies to avoid physical contact, even once the pandemic is over

80%

of people view touchscreens as unhygienic and believe they will behave differently if using public technology that they have no choice to touch

87%

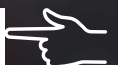

of shoppers prefer to shop in stores with touchless solutions rather than shop online

NO CONTACT = NO PROBLEM

With AIR TOUCH® your finger is detected 9 cm from the screen and you interact with the system at 5 cm. Thanks to our true mid-air interaction, you won't touch the screen by mistake likewise other technologies.

5 ↔ 9 cm

The Best Touchless Experience on the market

Natural, Accurate, Responsive, Safe.

**A TRUE MID-AIR INTERACTION,
5 - 9 CM FROM THE DISPLAY**

5 ↔ 9 cm

EFFECTIVE FOR ALL

AIR TOUCH® is the only technology on the market able to deliver a true mid-air interaction. All gestures are managed at a distance of 5 cm to 9 cm from the display.

- ✓ No need for the user to be meticulous when using
- ✓ No need for the user to be mentally focused
- ✓ No risk to touch the screen by mistake

AIR TOUCH® has been developed with the Users in mind. They will all experience the technology the same way. Even the ones who consider themselves as a non-techy persons.

- ✓ No Misclick
- ✓ No lack of accuracy or parallax issue
- ✓ No learning curve · it's easy from the very first use

AIR TOUCH® · The Best Touchless Experience on the market.

AIRxTOUCH® KIOSK

Series 3 Highlights

ALL-IN-ONE SOLUTION

Unpack. Plug. Play! AIRxTOUCH® KIOSK Series 3 is pre-calibrated in factory and comes with several demo Apps. In the box: Technology, Display, Stand & Player.

WORLD CLASS EQUIPMENT

We've teamed up with the best international brands: AIRxTOUCH® KIOSK comes with a 55" Samsung professional display and is powered by a Intel NUC player.

WINDOWS 10 COMPATIBLE

AIR TOUCH® Driver is designed for Windows 10. If your App runs in Windows, you're all good. You need a specific software? Contact us, we can do it for you.

DEPTH TRACKING

Our depth sensors detect and track your hand 9 cm from the screen and fires the click event (or other gestures) at 5 cm.

GLOVES FRIENDLY

Use it as you go: AIRxTOUCH® KIOSK Series 3 is so powerful that you can use it even if you are wearing gloves.

NO CONTACT = NO VIRUS TRANSFER

Since our AIR TOUCH® technology is 100% touchless, it's the more reliable solution against virus spread like the COVID-19 with regard to public touch screens.

4 COLORS TO CHOOSE FROM

To complete its black metal coating, AIRxTOUCH® KIOSK Series 3 is available with Lava Red, Atlantic Blue, Mint Green and Honey Yellow Plexiglas® inserts.

LIGHTNING FAST

Thanks to its 1 ms response time, our Kiosk allows the same ordering time compared to a touch device, without any impact on your workflow.

UNIQUE PATENTED TECHNOLOGY

Natural and easy to use from the very first time, AIR TOUCH® delivers the Best Touchless Experience on the market. With unmatched technical specifications.

AIRxTOUCH® CARE

Subscribe to our Care program and get an extended Warranty + automatic & unlimited Driver updates, online support, next business day SLA & Driver insurance.

On the floor or to the wall, set it up your way!

AIRxTOUCH® STAND

Our exclusive metal stand embeds all what is needed: PC (NUC), wires and Power alimentation.

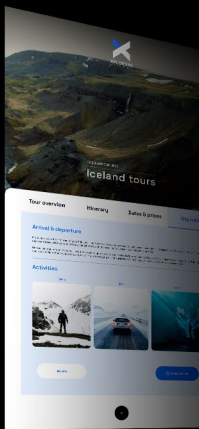

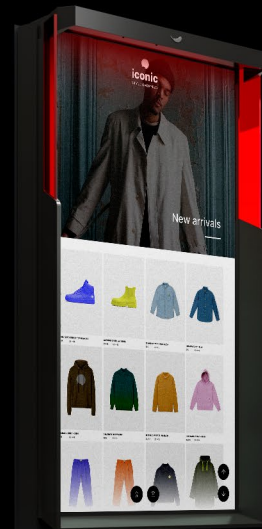

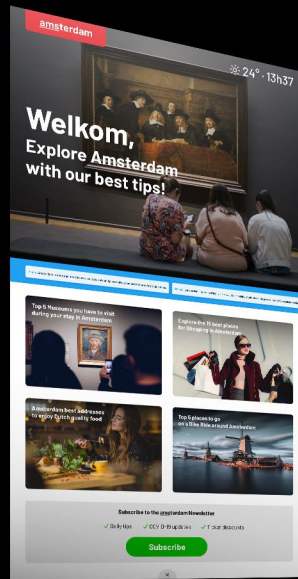

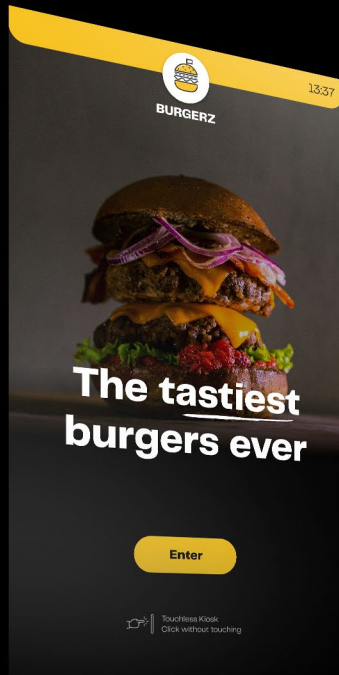

Its iconic style makes AIRxTOUCH® KIOSK Series 3 a piece of design that will fit your space. Since it is designed to complies with security standards for open public spaces, you can easily secure the kiosk to the floor.

WALL MOUNT

If you prefer to integrate AIRxTOUCH® KIOSK in a different way, you can skip the stand and easily put your system to the wall. Classy, isn't it?

AIRxTOUCH® KIOSK comes with a standard metal VESA mount ready to be directly hanged to the wall.

One technology, endless possibilities

OFF-THE-SHELF APPS

Based on our SKA™ platform, several cloud-based Business Apps are already available off-the-shelf. They are customizable to match your Brand identity. Our wide range of functional modules is here to bring all the features you need to make your business growth.

Whatever you run a Hotel, a Real Estate Agency or a public transportation network, SKA™ is made for you.

- ✓ Plenty of features
